## DISCUSSION:

King Tang is an architect at HOK. King would like to get more involved in how their city develops and share their opinion as a member of a young family which lives in the city.

Vita Rey is an interior designer and intern architect at Studio KDA who has obtained the National Council for Interior Design Qualification and is a Leadership in Energy and Environmental Design Green Associate. As a six-year resident, Vita has always been interested in how our city is evolving along with the rest of the Bay area. They went to SF State and observed how San Francisco has changes, then moved to Oakland and watched the city change. They are seeing a similar trend begin to hit in Richmond and would like to be an active part of the growth while bringing in their experience as a commercial designer of over eight years.
