RICHMOND FUND FOR CHILDREN AND YOUTH COMMUNITY NEEDS ASSESSMENT AND STRATEGIC INVESTMENT PLAN SCOPE OF WORK

EVALUATION GOALS

- Assess the current services provided to Richmond youth aged 24 years and younger through a thorough Community Needs Assessment, identifying strengths, weaknesses, opportunities, and threats.
- Engage a diverse range of stakeholders to obtain authentic input and feedback throughout the project, ensuring community understanding and alignment with the strategic plan's goals and objectives.
- Create a Strategic Investment Plan that guides the grant-making processes of the Richmond Fund for Children and Youth (RFCY), addressing identified gaps in services, leveraging opportunities, maximizing the impact of investments, and ensuring alignment with the intended purpose, goals, and outcomes of the Kids First Initiative as demonstrated in City of Richmond Charter Article 15 – Richmond Fund for Children and Youth.
- Assess and plan for the long-term impact of the Strategic Investment Plan on youth-serving organizations in Richmond and North Richmond, emphasizing sustainability, effectiveness, and positive community outcomes beyond the project timeline.

WORK TO BE COMPLETED

Public Works will develop (1) a Community Needs Assessment that will evaluate current services provided to Richmond youth 24 years and younger, and (2) a three-year Strategic Investment Plan that will guide the grant-making processes of the Fund. The specific work to be completed is summarized in the four tasks outlined below.

TASK 1: COMMUNITY ENGAGEMENT

Public Works will conduct individual and group interviews, focus groups, brainstorming sessions, and stakeholder meetings to identify key issues and develop recommendations, followed by multiple rounds of input and feedback from the Department, Board, and key stakeholder working groups.

TASK 1 ACTIVITIES:

- Public Works will conduct initial interviews with the project management team and senior staff regarding perceived strengths, weakness, opportunities, and threats.
- Based on initial interviews, Public Works will develop a list of diverse stakeholders and a plan of engagement that identifies the best way to engage each group. The list of stakeholders will include City officials and employees, community-based organizations, providers, business leaders, educators, and Richmond youth and their families.
- Public Works will conduct 1-1 and group interviews i.e. in person, by phone, and/or via Zoom.
- Based on both data gathered in interviews and quantitative data conducted by Public Works, we will develop a survey in English and Spanish and distribute through existing community channels.
- Public Works will conduct 8 to 10 stakeholder focus group sessions to identify strengths of the current investment plan, perceived challenges or weakness, and recommendations for rebalancing of investments and other improvements. Focus groups will involve priority populations identified in the City of Richmond Charter Article 15, including impacted youth, disconnected and transitional-aged youth, LGBTQ youth, immigrant and undocumented youth, youth living in poverty, and additional stakeholder groups identified by client.
- Public Works will subcontract with a community-based organization to help engage young people and families in community engagement activities and focus groups.
- Public Works will develop a Strategic Illustration and facilitate a public visioning event.
- Public Works will distribute thank you gifts to community-based organizations that host outreach and engagement events.
- Public Works will create social media content to be shared directly by the Department and by stakeholder individuals and organizations through their own existing social media channels to keep the community informed on the project.
- Public Works will provide a summary report on stakeholder engagement.

TASK 2: COMMUNITY NEEDS ASSESSMENT AND REPORT

Public Works will develop a community needs assessment report that identifies community needs, assets, service gaps, and recommendations. The report will include visual representations and quantitative datasets that can be included in the Performance Dashboard and incorporated in the City's Open Data portal and/or Health in All Policies annual report.

TASK 2 ACTIVITIES:

- Review existing agency data and records to identify external sources of information and best practices. This includes a full review of the Department of Children and Youth's Community Needs Assessment and its supporting documentation.
- Review the City of Richmond's demographic and economic trends and how they align to RFCY's previous program investments.
- Compare RFCY expenses and outcomes with similar benchmark initiatives nationwide.
- Compile a list of key relevant assets available to RFCY and develop an annotated collection of research articles and other sources of information.
- Identify possible redundancies and opportunities for efficient collaboration.
- Identify patterns across narratives and datasets.
- Create maps and other visual representations to show community needs, assets, and service gaps.
- In collaboration with the Department, Board, and key stakeholders, develop quantitative datasets that can be included in the Performance Dashboard and incorporated in the City's Open Data portal and/or Health in All Policies annual report.
- Present findings to Department staff, the Oversight Board, and other key stakeholders.
- Based on feedback from the public, the Oversight Board, and other key stakeholders, Public Works will develop a final draft of the Community Needs Assessment

TASK 3: STRATEGIC INVESTMENT PLAN

Public Works will develop a three-year Strategic Investment Plan that includes background information, community inputs, research findings, recommendations, fiscal analysis and methodology and implementation sections – complete with both text and graphics. Presentation materials will also be developed when presenting the three-year Strategic Investment Plan for approval and adoption, including a PowerPoint and an executive summary. All task activities will be completed in collaboration with the Department, Board, and key stakeholder working groups.

TASK 3 ACTIVITIES:

- Public Works will synthesize research from interviews, focus groups, and any other planning meetings into a prioritized list of recommendations which will address gaps in services and low-performing current investments.

- Public Works will develop performance metrics, along with the data sources needed for them.
- Public Works will develop an outline of the Strategic Investment Plan. This will include background information, community inputs, research findings, recommendations, fiscal analysis and methodology and implementation sections – complete with both text and graphics. Public Works will present an outline to the Oversight Board to collect feedback and identify revisions.
- Public Works will review an outline of the strategic plan to the public to obtain community feedback, and develop community buy-in.
- Based on feedback from the public, the Oversight Board, and other key stakeholders, Public Works will develop a final draft of the three-year Strategic Investment Plan.
- Public Works will make performance metrics public through a performance dashboard that will allow stakeholders to monitor program effectiveness based on program objectives.
- Public Works will plan appropriate publication and distribution of the report, including presentations to the City Council, media outreach, and meetings with community organizations and other stakeholders as directed by client.

TASK 4: ONGOING PROJECT MANAGEMENT

Public Works will lead project management and develop a communication protocol with all respective parties, including client project manager, Department staff, Board, and other key stakeholder working groups. Public Works will provide regular progress reports and collaborate with the Department, Board, and other key stakeholders throughout every step of the project to obtain input, feedback, and build broad consensus.

TASK 4 ACTIVITIES:

- Public Works will conduct an on-site project launch meeting to introduce the project team and their respective roles, develop a communication protocol including debriefs between our project manager and client’s project lead, and a review of project goals, objectives, and implementation steps to ensure alignment and understanding of project between Public Works and client.
- Public Works will request existing agency data and records to identify external sources of information and best practices. This includes a full review of the Department of Children and Youth’s Community Needs Assessment and its supporting documentation.
- All community engagement and outreach will be done in collaboration with the Department, Board, and key stakeholders, including the Service Provider Working Group, and the Interdepartmental Agency Working Group.

- Public Works will meet with the client project manager weekly and provide updates to the Department, Oversight Board, community, and the City Council monthly. As needed, we will offer guidance on the grant application form and process.

7. Records. Contractor shall keep and make available for inspection and copying by authorized representatives of the City, the State of California, and the United States Government, the Contractor's regular business records and such additional records pertaining to this Contract as may be required by the City.

Contractor shall retain all documents pertaining to this Contract for a period of five (5) years after this Contract's termination (or for any further period that is required by law) and until all Federal or State audits are complete and exceptions resolved for this contract's funding period. Contractor shall also allow City access to the record keeping and accounting personnel of Contractor. City further reserves the right to examine and re-examine said books, records, accounts, and data during the five (5) year period following the termination of this Contract; and Contractor shall in no event destroy, alter, or mutilate said books, records, accounts, and data in any manner whatever for five (5) years after the termination of this Contract.

The examination and audit shall be confined to those matters connected with the performance of this Contract including, but not limited to, the cost of administering this Contract.

8. Changes and Extra Work. All changes and/or extra work under this Contract shall be performed and paid for in accordance with the following:

Only the City Council or the City Manager may authorize extra and/or changed work. Contractor expressly recognizes that other City personnel are without authorization to either order extra and/or changed work or waive contract requirements. Failure of Contractor to secure the authorization for such extra and/or changed work shall constitute a waiver of any and all right to adjustment in contract price due to such unauthorized work and Contractor thereafter shall be entitled to no compensation whatsoever for performance of such extra and/or changed work.

If Contractor is of the opinion that any work which Contractor has been directed to perform is beyond the scope of this Contract and constitutes extra work, Contractor shall promptly notify City of the fact. The City shall make a determination as to whether or not such work is, in fact, beyond the scope of this Contract and constitutes extra work. In the event that City determines that such work does constitute extra work, City shall provide extra compensation to Contractor on a fair and equitable basis. A change order or Contract Amendment providing for such compensation for extra work shall be negotiated between City and Contractor and executed by Contractor and the appropriate City official.

In the event City determines that such work does not constitute extra work, Contractor shall not be paid extra compensation above that provided herein and if such determination is made by City staff, said determination may be appealed to the City Council; provided, however, a written appeal must be submitted to the City Manager within five (5) days after the staff's determination is sent to Contractor. Said written appeal shall include a description of each and every ground upon which Contractor challenges the staff's determination.

9. Additional Assistance. If this Contract requires Contractor to prepare plans and specifications, Contractor shall provide assistance as necessary to resolve any questions regarding such plans and specifications that may arise during the period of advertising for bids, and Contractor shall issue

any necessary addenda to the plans and specifications as requested. In the event Contractor is of the opinion that City's requests for addenda and assistance is outside the scope of normal services, the parties shall proceed in accordance with the changes and extra work provisions of Section 8 of these General Conditions.

10. Professional Ability. Contractor acknowledges, represents and warrants that Contractor and its employees are skilled and able to competently provide the services hereunder, and possess all professional licenses, certifications, and approvals necessary to engage in their occupations. City has relied upon the professional ability and training of Contractor as a material inducement to enter into this Contract. Contractor shall perform in accordance with generally accepted professional practices and standards of Contractor's profession. In the event that City, in its sole discretion, desires the removal of any person employed or retained by Contractor to perform services hereunder, such person shall be removed immediately upon receiving notice from City.
11. Business License. Contractor shall obtain a Richmond Business License before performing any services required under this Contract. The failure to so obtain such license shall be a material breach of this Contract and grounds for immediate termination by City; provided, however, that City may waive the business license requirement in writing under unusual or extraordinary circumstances without necessitating any modification of this Contract to reflect such waiver.
12. Termination Without Default. Notwithstanding any provision herein to the contrary, City may, in its sole and absolute discretion and without cause, terminate this Contract at any time prior to completion by Contractor of the project or services hereunder, immediately upon written notice to Contractor. Contractor may terminate this Contract at any time in its sole and absolute discretion and without cause upon 30 days' written notice to City. In the event of termination by either party, Contractor shall be compensated for: (1) all authorized work satisfactorily performed prior to the effective date of termination; (2) necessary materials or services of others ordered by Contractor for this Contract, prior to receipt of notice of termination, irrespective of whether such materials or services of others have actually been delivered, provided that Contractor is not able to cancel such orders. Compensation for Contractor in such event shall be determined by City in accordance with the percentage of the project or services completed by Contractor; and all of Contractor's finished or unfinished work product through the time of the City's last payment shall be transferred and assigned to City. Additionally, in the event of such termination, the City may proceed with the work in any reasonable manner it chooses.

13. Termination in the Event of Default. Should Contractor fail to perform any of its obligations hereunder, within the time and in the manner provided or otherwise violate any of the terms of this Contract, City may immediately terminate this Contract by giving written notice of such termination, stating the reasons for such termination. Contractor shall be compensated as provided in Section 12 of these General Conditions; provided, however, there shall be deducted from such amount the amount of damage, including attorney's fees, expert witness fees and costs, if any, sustained by City by virtue of Contractor's breach of this Contract. Additionally, in the event of such termination, the City may proceed with the work in any reasonable manner it chooses.

14. Conflict of Interest. Contractor acknowledges, represents and warrants that Contractor shall avoid all conflicts of interest (as defined under any federal, state or local statute, rule or regulation, or at common law) with respect to this Contract. Contractor further acknowledges, represents and warrants that no City official or employee has any economic interest, as defined in Title 2, California Code of Regulations §§ 18703.1 through 18703.5, with Contractor that would invalidate this Contract. Contractor acknowledges that in the event that Contractor shall be found by any judicial or administrative body to have any conflict of interest (as defined above) with respect to this Contract, all consideration received under this Contract shall be forfeited and returned to City forthwith. This provision shall survive the termination of this Contract for one (1) year.

15. Indemnification.

(a) If this Contract is a contract for design professional services subject to California Civil Code Section 2782.8(a) and Contractor is a design professional, as defined in California Civil Code Section 2782.8(b)(2), Contractor shall hold harmless, defend and indemnify the City, its officers, agents, employees, and volunteers from and against any and all claims, damages, losses, and expenses including attorneys' fees arising out of, or pertaining to, or relating to the negligence, recklessness, or willful misconduct of the Contractor, except where caused by the active negligence, sole negligence, or willful misconduct of the City. To the fullest extent permitted by law, Contractor shall immediately defend and indemnify the City and its officers, agents, employees, and volunteers from and against any and all liabilities, regardless of nature or type, that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Contractor, or its employees, agents, or subcontractors. Liabilities subject to the duties to defend and indemnify include, without limitation, any and all claims, losses, damages, penalties, fines, and judgments; associated investigation and administrative expenses; defense costs, including but not limited to reasonable attorneys' fees; court costs; and costs of alternative dispute resolution. Contractor's obligation to

indemnify applies unless it is finally adjudicated that the liability was caused by the sole active negligence or sole willful misconduct of an indemnified party.

- (b) If this Contract is not a contract for design professional services subject to California Civil Code Section 2782.8(a) or Contractor is not a design professional as defined in California Civil Code Section 2782.8(b)(2), Contractor shall indemnify, defend, and hold harmless the City, its officers, agents, employees and volunteers from any and all claims, suits, or actions of every name, kind and description, brought forth on account of injuries to or death of any person or damage to property arising from or connected with the willful misconduct, negligent acts, errors or omissions, ultra-hazardous activities, activities giving rise to strict liability, or defects in design by Contractor or any person directly or indirectly employed by, or acting as, the agent for Contractor in the performance of this Contract, including the concurrent or successive passive negligence of the City, its officers, agents, employees or volunteers.
- (c) It is understood that the duty of Contractor to indemnify and hold harmless includes the duty to defend as set forth in Section 2778 of the California Civil Code. Contractor shall be obligated to defend, in all legal, equitable, administrative, or special proceedings, with counsel approved by the City, the City and its officers, agents, employees, and volunteers, immediately upon tender to Contractor of the claim in any form or at any stage of an action or proceeding, whether or not liability is established. An allegation or determination that persons other than Contractor are responsible for the claim does not relieve Contractor from its separate and distinct obligation to defend under this Section 15. The obligation to defend extends through final judgment, including exhaustion of any appeals. The defense obligation includes an obligation to provide independent counsel if Contractor asserts that liability is caused in whole, or in part, by the negligence or willful misconduct of an indemnified party.
- (d) The review, acceptance or approval of the Contractor's work or work product by any indemnified party shall not affect, relieve or reduce the Contractor's indemnification or defense obligations. This Section 15 survives completion of the services or the termination of this Contract. toward effecting the purpose of this Contract, and the validity and enforceability of the remaining provisions or portions or applications thereof, shall not be affected thereby.

Inspections or approvals, or statements by any officer, agent or employee of the City relating to the Contractor's performance, or payments therefore, or any combination of these acts, shall not relieve the Contractor's obligation to fulfill this Contract as prescribed; nor shall the City be thereby stopped from bringing any action for damages or enforcement arising from any failure to comply with any of the terms and conditions of this Contract.
38. Possessory Interest. If this Contract results in the Contractor having possession of, claim to or right to the possession of land or improvements, but does not vest ownership of the land or improvements in the same person, or if this Contract results in the placement of taxable improvements on tax exempt land (Revenue and Taxation Code 107), such interest or improvements may represent a possessory interest subject to property tax, and Contractor may be subject to the payment of property taxes levied on such interest.
