

Irrigation Supplies, Tools and Parts

NOTICE INVITING BIDS

The City of Richmond Public Works Department requires the purchase and delivery of irrigation supplies, tools, and parts to support ongoing park and landscape maintenance operations. These materials are essential for maintaining and repairing irrigation systems throughout City parks, medians, and landscaped public areas. Competitive bidding ensures cost efficiency, quality standards, and availability of compatible components for the City's irrigation infrastructure.

Bid Release Date: October 29, 2025

Deadline for Questions: November 19, 2025 at 5:00 pm – All questions must be submitted electronically through the City's BidsOnline system.

Bid Due Date: December 1, 2025 at 2:00 pm – Late bids will not be accepted.

Submittal: Bids must be submitted electronically via the City's BidsOnline system at www.ci.richmond.ca.us/bids. Oral, faxed, or emailed bids will not be accepted.

Addenda and Clarifications: Any responses to questions, changes, or clarifications will be issued exclusively through the City's BidsOnline system as addenda. It is the responsibility of each bidder to monitor BidsOnline for addenda prior to submitting a bid.

BASIS OF AWARD

The City of Richmond is soliciting competitive bids for the purchase and delivery of irrigation supplies, tools, and parts on an as-needed basis. The City reserves the right to award to one or multiple vendors in a manner that best serves the interests of the City.

Term of Agreement

The initial contract term shall be for three (3) years, with the option to extend for up to two (2) additional one-year periods at the sole discretion of the City. Renewal is contingent upon vendor performance, continued need, and the availability of funds.

Estimated Expenditures

The City anticipates expenditures of approximately \$100,000 annually for irrigation supplies, tools, and parts combined. This figure is provided for informational and evaluation purposes only and does not represent a commitment or guarantee by the City.

Pricing and Quantities

Bidders shall provide unit pricing for each listed item. Payment will be made based on actual units ordered, delivered, and accepted.

Basis of Award

Award(s) will be made to the lowest responsive and responsible bidder(s) whose bid(s) conform to all requirements of the solicitation. The City reserves the right to reject any or all bids, waive minor irregularities, and accept the bid(s) determined to be in the best interest of the City.

1. General Requirements

The City of Richmond Public Works Department (Operations & Maintenance – Parks and Landscaping Division) is seeking bids from qualified vendors for the supply and delivery of irrigation system components, including valves, rotors, nozzles, fittings, solenoids, pipe accessories, adhesives, and other related irrigation parts.

- All materials shall meet industry standards for performance, durability, and safety.
- Pricing shall include delivery to designated City job sites or the Corporation Yard (as coordinated with City staff).
- All products must be new, unused, and in manufacturer's original packaging.
- Substitutions or equivalent parts must be pre-approved by the City prior to order fulfillment.
- Quotations must include all applicable charges, including delivery, fuel surcharges, and offloading fees if applicable.

2. Specifications

Irrigation supply items, tools, and components to be provided shall conform to the schedule of items included in price list (or approved equivalent).

The City reserves the right to inspect and test materials to ensure compliance with specifications and may reject any items determined to be nonconforming.

3. Pricing Structure (see pricing page)

Vendors must provide unit cost per item, applicable delivery fees, turnaround times, and volume discounts if available.

4. Additional Requirements

- Vendor shall specify minimum order quantities (if any).
- All deliveries must occur Monday–Friday between 8:00 a.m. and 3:00 p.m., unless otherwise approved by the City.
- Vendor must include all charges (e.g., pallet deposits, offloading fees, and delivery costs).

- City reserves the right to award by item, group, or total bid.

Pricing Page

Supply and Delivery of Irrigation Supplies, Tools, and Parts

The completed pricing page must be uploaded to the BidsOnline system as part of the bid submittal. Bids that do not include the pricing page will be considered non-responsive.

Vendors must complete all sections below. Prices shall be unit prices, inclusive of all labor, materials, equipment, and incidentals necessary to furnish and deliver the specified items. Delivery costs should be shown separately if not included in the unit price. Where a specified brand and model are listed, the City will consider approved equivalents of equal or better quality and performance. Any proposed equivalent must be clearly identified in the bid response and supported with manufacturer specifications.

Thank you very much for the opportunity to provide this quotation

We do our best to give you good price & service.

Line #24 -Toro T5 Rotor Reclaimed (T5PE-RS-LN)

QUOTING: Toro T5PE3.0-RS Toro 5" T5 Rotor W Rapidset 3.0 Nozzle Effluent

Item #: T5PE3.0-RS by Toro

UPC #: 090258055976

Arc adjustments from 40° to 360° can be made quickly with a few twists of the turret – no tools required. The patent-pending RapidSet slip clutch also protects against gear damage caused by intentional vandalism or inexperienced users.

The T5 RapidSet rotor comes with a full set of 8 standard nozzles (25° trajectory) and 4 low angle (10° trajectory) nozzles. The nozzles' unique geometry creates a zone of low pressure just below the main stream to gently guide water downward for unmatched uniformity without forcefully washing out newly-laid seeds.

Easily replaces most competitive 4" pop-up rotors in the same footprint, but delivers an extra inch of nozzle clearance.

Commercial-grade 304 stainless steel riser and nozzle base sleeves help prevent 'stick-ups' and eliminate scoring of the riser caused by coarse and sandy soils.

Line # 52 Threaded Ball Valve 1 1/2" (Schedule 80)
QUOTING: 1-1/2" 770G SCH 80 Gray PVC Ball Valve (Threaded)

Features and Benefits

Connection Size: 1-1/2"

Connection Type: NPT

150 PSI @ 73 Deg. F

Gray Color

Sch. 80

NSF Approved

Fits Sch. 40 & Sch. 80 Pipe

Threaded Ends (Comply With ANSI B1.20.1)

ABS cap, EPDM O-ring

Product Type: Ball Valve

Size: 1-1/2"

Connection Method: Threaded

Handle Style: T-Handle

Color: Gray

Application: Schedule

80

Line # 53 Threaded Ball Valve 2" (Schedule 80)
QUOTING: Bluefin 2" Gray SCH 80 PVC Ball Valve (Threaded)

This item is suitable for Schedule 40 and Schedule 80 pipe up to 150 PSI @ 73F applications.

Features:

- ISO-9002

Material:

PVC

Size:

2"

Connection Method:

Threaded

Connection Type:

FNPT x FNPT

Color:

Gray

Pressure Rating:

150 PSI @ 73°F

Approvals:

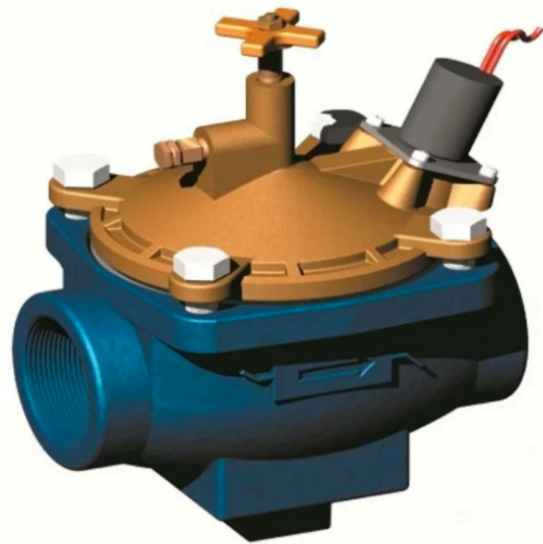

Non NSF

Handle Style:

T-Handle

Line # 61 Griswold 2000 Series Solenoid

QUOTING: Griswold - 2000L - RCV Valve Normally Closed 2 in. FIPT Cast Iron and Bronze the valve is ideally suited for use as either an On-Off Solenoid Valve or as a General Purpose Master Valve.

Operating Pressure: 2 to 200 PSI

Material: Cast Iron and Bronze

End Connections: NPT

Voltage Operating Range: 22-28 VAC

Low Current Requirement: 0.40 A at 24 VAC

The 2000 Solenoid Control Valve offers maximum performance combined with the reliability you have come to expect from Griswold Controls. Intended for use in a wide variety of irrigation systems, the valve is ideally suited for use as either an On-Off Solenoid Valve or as a General Purpose Master Valve.

CITY OF

Richmond CALIFORNIA

Irrigation Supplies, Tools and Parts

NOTICE INVITING BIDS

The City of Richmond Public Works Department requires the purchase and delivery of irrigation supplies, tools, and parts to support ongoing park and landscape maintenance operations. These materials are essential for maintaining and repairing irrigation systems throughout City parks, medians, and landscaped public areas. Competitive bidding ensures cost efficiency, quality standards, and availability of compatible components for the City's irrigation infrastructure.

Bid Release Date: October 29, 2025

Deadline for Questions: November 19, 2025 at 5:00 pm – All questions must be submitted electronically through the City's BidsOnline system.

Bid Due Date: December 1, 2025 at 2:00 pm – Late bids will not be accepted.

Submittal: Bids must be submitted electronically via the City's BidsOnline system at www.ci.richmond.ca.us/bids. Oral, faxed, or emailed bids will not be accepted.

Addenda and Clarifications: Any responses to questions, changes, or clarifications will be issued exclusively through the City's BidsOnline system as addenda. It is the responsibility of each bidder to monitor BidsOnline for addenda prior to submitting a bid.

BASIS OF AWARD

The City of Richmond is soliciting competitive bids for the purchase and delivery of irrigation supplies, tools, and parts on an as-needed basis. The City reserves the right to award to one or multiple vendors in a manner that best serves the interests of the City.

Term of Agreement

The initial contract term shall be for three (3) years, with the option to extend for up to two (2) additional one-year periods at the sole discretion of the City. Renewal is contingent upon vendor performance, continued need, and the availability of funds.

Estimated Expenditures

The City anticipates expenditures of approximately \$100,000 annually for irrigation supplies, tools, and parts combined. This figure is provided for informational and evaluation purposes only and does not represent a commitment or guarantee by the City.

Pricing and Quantities

Bidders shall provide unit pricing for each listed item. Payment will be made based on actual units ordered, delivered, and accepted.

Basis of Award

Award(s) will be made to the lowest responsive and responsible bidder(s) whose bid(s) conform to all requirements of the solicitation. The City reserves the right to reject any or all bids, waive minor irregularities, and accept the bid(s) determined to be in the best interest of the City.

1. General Requirements

The City of Richmond Public Works Department (Operations & Maintenance – Parks and Landscaping Division) is seeking bids from qualified vendors for the supply and delivery of irrigation system components, including valves, rotors, nozzles, fittings, solenoids, pipe accessories, adhesives, and other related irrigation parts.

- All materials shall meet industry standards for performance, durability, and safety.
- Pricing shall include delivery to designated City job sites or the Corporation Yard (as coordinated with City staff).
- All products must be new, unused, and in manufacturer's original packaging.
- Substitutions or equivalent parts must be pre-approved by the City prior to order fulfillment.
- Quotations must include all applicable charges, including delivery, fuel surcharges, and offloading fees if applicable.

2. Specifications

Irrigation supply items, tools, and components to be provided shall conform to the schedule of items included in price list (or approved equivalent).

The City reserves the right to inspect and test materials to ensure compliance with specifications and may reject any items determined to be nonconforming.

3. Pricing Structure (see pricing page)

Vendors must provide unit cost per item, applicable delivery fees, turnaround times, and volume discounts if available.

4. Additional Requirements

- Vendor shall specify minimum order quantities (if any).
- All deliveries must occur Monday–Friday between 8:00 a.m. and 3:00 p.m., unless otherwise approved by the City.
- Vendor must include all charges (e.g., pallet deposits, offloading fees, and delivery costs).
- City reserves the right to award by item, group, or total bid.

Pricing Page

Supply and Delivery of Irrigation Supplies, Tools, and Parts

The completed pricing page must be uploaded to the BidsOnline system as part of the bid submittal. Bids that do not include the pricing page will be considered non-responsive.

Vendors must complete all sections below. Prices shall be unit prices, inclusive of all labor, materials, equipment, and incidentals necessary to furnish and deliver the specified items. Delivery costs should be shown separately if not included in the unit price. Where a specified brand and model are listed, the City will consider approved equivalents of equal or better quality and performance. Any proposed equivalent must be clearly identified in the bid response and supported with manufacturer specifications.

No.	Description	Unit Cost (\$)	Notes
1	Toro 220 Series Brass Pressure Regulated Remote Control Valve – 1" (220-27-04)	243.64
