# Magnet Forensics GrayKey

GrayKey is a mobile forensic tool developed by **Magnet Forensics**, used for accessing and extracting data from mobile devices, including iPhones and Android devices. It's known for its ability to bypass device lock screens and extract a wide range of data, including deleted files.

## Key Features and Functionality:

- **Accessing Data:**

GrayKey provides access to a wide range of mobile devices, including iPhones and Android devices.

- **Bypassing Passcodes:**

It can bypass device lock screens and passcodes to extract data.

- **Extracting Data:**

GrayKey extracts data from mobile devices, including files, messages, contacts, and other data.

- **Recovering Deleted Data:**

It can recover deleted data from mobile devices, even after they have been deleted by the user.

- **Integration with Magnet Forensics AXIOM:**

GrayKey integrates with Magnet Forensics AXIOM, a digital investigation platform, to facilitate the processing and analysis of extracted data.

- **FastTrack:**

GrayKey also offers a FastTrack service for expedited data extraction and processing.

## Use Cases:

- **Law Enforcement:**

GrayKey is primarily used by law enforcement agencies for criminal investigations.

- **Digital Forensics:**

It's a valuable tool for digital forensic professionals involved in accessing and analyzing mobile device data.

- **Mobile Device Analysis:**

GrayKey is used to analyze mobile devices to uncover evidence, such as text messages, images, and other data.

The Gray Key license is valid for 12 months. Several packages are available, from 4 to 75 "Action Credits". Action Credits are the cellphone brute force unlocks. Most departments are using Action Credits (brute force unlocks) only in the most serious cases (homicides, rapes, etc). Generally, the Grey Key software is able to download basic data without the need to use brute force to unlock it. Several of the packages are:

- 5 = \$4,000
- 10 = \$5,500
- 20 = \$8,000
- 50 = \$15,000
- 75 = \$18,750

The software to process the downloaded data is a separate price

- Axiom Essentials \$4,620
- Axiom Advanced \$6,750
- Axiom Premier \$9,800

The software is **NOT NEEDED** since we already have a cellphone data processing software (Cellebrite Premium).
